Break Even Calculator

Break Even Analysis is an expected component of most business plans, especially for startups. This calculator shows how much revenue you need to cover both fixed and variable costs.

Investment Offering Calculator

Use this calculator to view both sides of the investment table. See what an investor gets and what a company gives up all in one easy tool.

Starting Costs Calculator

This calculator helps you evaluate how much capital you'll need to start your business.

Online Business

Conversion Rate Calculator

This calculator shows you what impact improving your website conversion rate has on your total online sales. Enter your visitors and total orders, and you can see what an increase in conversion can do.

E-Mail ROI Calculator

Use this calculator to determine the ROI (return on investment) of your e-mail campaign. You can test different scenarios to see the results.

Pay-Per-Click ROI Calculator

Use this calculator to determine the ROI (return on investment) for your pay-per-click advertising campaigns.

Create PDF files FREE

www.cutepdf.com

You can create dynamic documents, spreadsheets, analyze data, design eye-catching presentations, produce dramatic illustrations, and open up your databases. You can publish your work in Portable Document Format (.pdf), and release your graphics in Flash (.swf) format - without needing any additional software. OpenOffice is now available for more users than ever, with support for complex text layout (CTL) languages (such as Thai, Hindi, Arabic, and Hebrew) and vertical writing languages.
